SIDI SIR AHMED KHAN SIDI IBRAHIM KHAN, G.C.I.E.,

NAWAB SAHEB OF JANJIRA.

YOUR HIGHNESS,

I have the honour to submit herewith the Annual Administration Report of the Janjira State, including the Dependency of Jafarabad, for the official year 1911-1912.

2. The details of Administration are given in the Report. The most noteworthy events of the year are mentioned in their proper places in the body of the Report.

3. In conclusion I am glad to observe that all the State officers worked zealously and discharged their duties satisfactorily during this eventful year, and all Your Highness' subjects displayed sincere loyalty on the occasion of the ever memorable 12th December 1911.

I have the honour to be,

Your Highness,

Your Highness' most obedient servant,

DEWAN, JANJIRA STATE.

CHAPTER I.—GENERAL AND POLITICAL.

The State of Janjira lies to the South of Bombay and is surrounded on all sides by British Territory. Its area is *324* square miles and its population according to the census of 1911 is *88,717* souls. The Gross Revenue calculated on an average of the last five years is Rs. *5,45,203*.

The Dependency of Jafarabad is situated in the extreme south of Kathiawar. Its area is *53* square miles and its population *12,373*. Its Gross Revenue is Rs. *64,189*.

2. The State pays no tribute to the British Government nor to any State. It receives from Junagadh an annual tribute of *360 Rayals*.

3. His Highness the Nawab Saheb enjoyed good health throughout the year and continued to devote uninterrupted attention to the direction of the affairs of the State.

4. His Highness, who was staying in Bombay at the close of the last year, returned to Murud-Janjira in the beginning of May 1911. His Highness paid a short visit to Bombay in October last. His Highness again visited Bombay in November 1911, previous to his going to Delhi for the purpose of being present at the Imperial Coronation Durbar in response to the kind invitation from the Government of Bombay. His Highness left Bombay for Delhi on the 22nd November and arrived there on the 23rd. After presenting himself at the Imperial Durbar and attending most of the functions held in honour of that auspicious occasion, His Highness left Delhi on the 20th December and arrived in Bombay on the 22nd. After staying there for a few days His Highness returned to Janjira on the 5th January 1912. His Highness again went to Bombay in the same month and returned in February.

5. No domestic event worthy of report occurred in His Highness' family during the year.

6. The most important events of the year under report were the Coronation in London of Their Imperial Majesties King-Emperor George V and Queen-Empress Mary on the 22nd June 1911 and the Imperial Coronation Durbar held by Their Imperial Majesties at Delhi on the 12th of December 1911, for the purpose of making known in person to all the princes and people of India the solemnity of Their Coronation in London.

The 22nd day of June 1911 being the Coronation day of Their Imperial Majesties in London evoked the greatest enthusiasm in Janjira. In the morning the day was celebrated by a Royal salute fired from the Fort and Military and Police parades and by feeding the helpless poor, and offering prayers and thanksgivings in mosques and temples. The afternoon programme opened with the gatherings of school boys and

girls, who were made to understand the significance of the day and were given sweets. The State Officials, leading townsmen and Municipal Councillors assembled in the Town hall and the Officers' Club to make loyal demonstrations and to wish long life and unbroken prosperity to Their Imperial Majesties. All the functions ended with three hearty cheers for Their Imperial Majesties.

The Coronation Durbar Day *viz.*, the 12th of December 1911, was observed as a day of great universal rejoicing in the Janjira State. The Palace and the Dewan's office were tastefully decorated with flags and buntings, and triumphal arches with appropriate inscriptions were erected at several places. A Durbar largely attended by Khanjadas, Bhaibands, Sidi Sardars, Officers, Merchants and principal inhabitants of the town was held at noon in the spacious hall of the Dewan's office where the Royal Proclamation was read out by the Sar Nyayadhish, Janjira, in English and Marathi, and by the Educational Inspector, in Urdu. At the time of the reading of the Proclamation an Imperial Salute of 101 guns was fired from the saluting battery in the Janjira Fort. Portraits of Their Majesties were placed in the centre of the assembly with beautiful garlands hanging about them. The National Anthem and poems composed for this memorable and auspicious occasion were sung by boys and girls of the Murud schools. As an act of clemency, release and remissions were granted to prisoners and the Durbar terminated with three hearty cheers for the King-Emperor and three for the Queen-Empress. Similar Durbars were held in the Janjira Fort and at Shrivardhan and Mhasla and in all villages in the State where there was a school. The Royal Proclamation was read out in each of these Durbars and a portrait of Their Imperial Majesties was exhibited to the people assembled there. Sweets and Coronation Medals were distributed to all school children in the State and they were made to understand the great significance of the occasion of His Imperial Majesty's visit to India. Athletic sports also formed part of the celebrations. Special prayers were offered in temples and mosques for the long life and happy and prosperous Rule of Their Imperial Majesties. The poor were liberally fed with cooked and sweetened food. At three o'clock a meeting was held in honour of the great event by the members of the Murud Municipality and by the subscribers of the Native General Library, where Mr. S. A. Kulkarni, B. A., First Assistant Teacher in the Murud High School, delivered a lecture on "Loyalty." The Officers' Club and the Anjuman-i-Islam, Janjira, also celebrated the day in a fitting manner. In the evening all State buildings, Telegraph and Post Offices and principal mosques and temples were illuminated. Private persons also co-operated with the authorities in this respect and illuminated their dwelling houses and business premises. There were also displays at night of fire-works in Murud, Shrivardhan and Mhasla.

At Jafarabad the celebration of this solemn and auspicious event was made exactly on the above lines.

7. Their Excellencies Sir George and Lady Clarke were graciously pleased to accept Their Highnesses' invitation to preside over the opening ceremonies of the Fatima Begum Hospital and the Bazm Mahal (building for ladies), which took place on the 21st February 1912. On His Excellency's arrival at the Shamiana in front of the Hospital, His Highness conducted His Excellency to the seat on the dias and having introduced the Khanjadas, Sardars and Officers to His Excellency, welcomed the guests with a short and earnest speech as follows :—

"YOUR EXCELLENCY,

Begum Saheba and myself are greatly obliged to Your Excellencies for giving response to our invitation and coming down to Janjira at this time when the pressure of work is extremely heavy upon Your Excellency. This is a clear proof of Your Excellency's personal friendly feelings towards me.

2. Our pleasure has been very much enhanced by Lady Clarke accompanying Your Excellency—an event unique in the history of this State, as never before has a Governor's wife visited Janjira and more especially as Her Excellency is taking part in a function which is of such great importance to the ladies of my State.

3. It is indeed a matter of great satisfaction and pleasure to me that Your Excellency has presided over the opening ceremony of the Fatima Begum Shafakhan, *i.e.* Hospital, which is so named in memory of my revered mother.

4. We congratulate ourselves upon having chosen for this ceremony a year which has been made memorable in the history of India by the Inspiring Visit of Their Imperial Majesties.

5. Before I request Your Excellency to declare the Fatima Begum Hospital open, my Chief Medical Officer will give Your Excellency a short history of the development of the Medical Department in this State."

The Chief Medical Officer then read the following short history of the Janjira Medical Department :—

"Your Excellency, Your Highness, and gentlemen, the history of the Medical as well as the Educational Department in the Janjira State is a history of gradual but steady and lucid progress. The State with munificent generosity has done more than what can be justly claimed from it, by way of promoting people's well-being, physical, moral and intellectual.

The Janjira Medical Department developed out of a small Agency Dispensary established in 1880. This Dispensary was found inadequate to satisfy the public demand, and therefore, in 1884 it was expanded into the present Murud Dispensary on a large scale and free and open to the public at large. Only four years after this, the Dependency of Jafarabad was blessed with the establishment of the Godavaribai Charitable Dispensary, which is under the full and direct control of the Janjira Chief Medical Officer.

The next step in the progressive process of the Department was the opening of the Taluka Dispensaries at Shrivardhan and Mhasla in 1893 and 1895, respectively. This was closely followed upon by the establishment of the Dispensary in the Janjira Fort to meet the pressing need of the people there.

All these Dispensaries are under competent and qualified medical men and they prescribe and dispense medicine to the public, free of charge and without distinction of race, caste and creed. In course of time, the medical staff of the Murud Dispensary had the addition of a Midwife and Nurse for treating labor cases. The maintenance of the Midwife and Nurse has done much good especially to the poor, as it lies within her proper duty to attend upon the patients at home without charging any fees.

The people showed a keen appreciation of the State's liberality in establishing and maintaining these free Medical Institutions, and were not slow in taking full advantage of it. In the Murud Dispensary the number of patients rose from 2,539 to 11,471, in the first decade of years from its establishment and the next decade more than doubled this increase, until at last in 1908-1909 the number came to 28,598 which justified the opening of a branch to satisfy the demand of the growing population of Murud; and the same year saw in November, the Murud Branch Dispensary started and lodged in the very heart of the town.

The next step in the expansion of the Department was indicated by the keenly felt want of some suitable arrangement for the accommodation of in-door patients. The State, therefore, resolved to establish a regular Hospital well equipped with all surgical instruments, ward conveniences, hospital furniture, and other necessary appliances with spacious operation and ward rooms. With a view to accomplish this, the State specially planned, designed and erected a solid, airy and well-lighted building at a cost of Rs. 17,000. This Hospital is to be named "Fatima Begum Civil Hospital" in memory of His Highness' late revered mother. The Fatima Begum Hospital is designed to have two separate wards one for males and the other for females.

If one were to compare the Murud of to-day with what it was 20 years ago, one would be struck by the wonderful change in the state of

public health. Some of the diseases that were once rife are now almost extinct. The most notable of these is the guineaworm. Twenty years ago, there was not a street or lane but had a number of persons temporarily crippled by the pest of guineaworm. The source of this disease was the unwholesome water of the local wells, and its disappearance is wholly due to the sufficient supply of fresh pure water from the Victoria Jubilee Water Works. The general improvement in public health of Murud is to be attributed to the work of the medical service and the active co-operation of the town Municipality. The Medical Department has also done much good by improving, in a way, the public moral tone and by dispelling many superstitious fears and foolish beliefs. The Medical Department had, in its early ages, to fight a hard fight when the people had an aversion for English medicines. In cases of illness, they mostly had recourse to spiritual seances, ghostly oracles, exorcisers, charms and amulets. Even the most reasonable people had a prejudice against the Dispensary medicines, and put themselves helplessly in the hands of the Indian Vaidyas, several of whom were mountabanks and quacks and did more harm than good by their drugs administered by haphazard. But slowly the times changed and the popular tide turned in favour of the Medical Department. At present the Department has won the full confidence of the public by its eminent service. In the last decade, 1901-1911, the number of patients in the whole State has risen from 27,864 to 44,079, and the number of operations from 152 to 451. The total cost of maintaining the Department was, for the last year, Rs. 14,369-2-2.

The most common diseases noticed here are Malarial Fevers, Conjunctivities, Rheumatic Affections, Bronchial Affections, Ringworms and Dyspepsia.

Now it is our sincere hope that the Hospital to be opened now, will, for many years to come, do unceasingly its work of bringing relief to the helpless, help to the diseased and hope to the disappointed."

His Excellency, in reply, said :—

"YOUR HIGHNESS,

It is a great pleasure to my wife and myself to pay this little visit to Janjira and to be permitted to associate ourselves with two excellent Institutions which Your Highness has provided for the benefit of your people. It is of happy augury that the Fatima Begum Civil Hospital and the Bazm Mahal should be inaugurated in a year which will be for ever memorable on account of the visit of Their Imperial Majesties to India. That visit, we all feel, has evoked deep sentiments of affection among a warm-hearted people, has strengthened the ties which bind India to the ancient Throne of Britain, and has brought new hopes of

progress to many millions of Their Majesties' loyal subjects in this great country.

Lady Clarke and I thank you for your warm welcome to this beautiful spot where peace reigns under the aegis of the British Flag, and the sounds of war have long died away and are forgotten. The Native States of India occupy a unique position in the world. They are relics of the past which we treasure. They are absolutely guaranteed in their territorial possessions but they enjoy full freedom of Government and can develope their resources in their own way. It is our duty only to help them in any trouble, to give them advice if they so desire, and to stand to them always in the relations of true friendship. In the very varied and strenuous work that falls to a Govenor of Bombay, none is so interesting as that which concerns the welfare of the very large number of Native States which lie within the borders of the Presidency. I have visited many of them and I have received from the Chiefs invariable kindness. I hope that I have won their confidence and I can assure them all that, when I return to England, I shall never cease to remember them with affection and to take interest in their welfare.

This is my second visit to Janjira and I am sorry to think that it must be the last. Your Highness tells me that no Governor's wife has been here before. That must be because your land communications are somewhat long and difficult, while many ladies are inclined to fear the effects of the restless sea, which has played a large part in your history. Your Highness has been very good in finding for each of us an appropriate little ceremony to-day, and Lady Clarke will always remember with pleasure her visit to Janjira and that she shared with me as she always wishes to do, in promoting objects directed to the welfare of the people.

Of the many calls upon Government in India, none are more important than the provision of medical aid which goes to the root of the happiness and prosperity of the masses. The amount of misery and loss which may be caused by preventible disease is a sad subject for thought. We are doing all we can to mitigate suffering and to combat remediable ailments; but much more remains to be accomplished. I hope that in the loud demand for more education the medical requirements of the people will not be forgotten. The importance of education, provided that it is sound and that it leaves a good impress for life upon all who receive it cannot be over-estimated; but the want of medical aid and sanitation may gravely diminish the economic benefits which our schools should confer. From the point of view of the greatest happiness of the greatest number, health is a vital consideration.

The very interesting and lucid account of the progress of medical aid in Janjira, which we have heard, shows that Your Highness perfectly realizes how much depends upon this branch of Government activity and testifies to the fatherly care which you devote to your subjects. From

the small Agency dispensary of 1880 to this Civil Hospital is a long and a most satisfactory step on which I warmly congratulate Your Highness and your medical officers. The fact that, in 20 years the number of patients treated in the medical institutions of the State rose from 2,539 to 28,598, and has now reached 44,079 conclusively proves that the people of Janjira are beginning to realize the advantages of Western methods. In British territories also, we find a growing confidence in those methods which is a hopeful sign. The progress of sanitation in India must depend on the measure of trust which we are able to inspire, and as knowledge of the beneficial results of Western medicine and surgery spreads, it will become easier to save life and to raise the standard of public health. I am very glad to hear that the aversion to Western medicines is passing away, and I may point out that all indigenous medicines which have any curative value find a place in the English Pharmacopœia, and that they have received much more study from Europeans than from the Vaids and Hakims of India. When the latter resort to charms and amulets, it is only just to say that they deceive ignorant people and doubtless contribute to the loss of useful lives. If the Indian systems claim consideration, their professors must submit to long and systematic training and must acquaint themselves with the results of the continuous research which is daily contributing to our knowledge of pathology. Failing this they cannot expect any recognition from Government. I note what has been said as to the disappearance of Guineaworm, which with other diseases, is the direct effect of impure water. In providing Water Works, Your Highness has rendered an invaluable service to the people. I regard this as one of the first duties of Government, and I am glad to say that we have been doing and will continue to do all we can to help Municipalities to provide our towns with this inestimable boon. I am very glad to know that free midwifery attendance is provided. That is a direction in which it is most necessary to move. Trained midwives and nurses able to diffuse knowledge of the care of infants can do much to mitigate suffering and to reduce an infant mortality which is far too high.

It is now my pleasant privilege to declare the Fatima Begum Civil Hospital to be open. I am sure that it will bring hope and relief to many, that it will help to raise the standard of health and that it will remain always as a monument to your Highness's beneficent Rule and to the filial affection which its name will commemorate."

His Excellency was then garlanded by His Highness and after the distribution of pan-supari and attar gulab, His Excellency was shown over the building. His Excellency then proceeded to pay a visit to the Bazm Mahal which was simultaneously opened by Her Excellency Lady Clarke.

8. Mr. J. K. N. Kabraji, Collector and Political Agent, Kolaba, was pleased to pay a visit to the State in May last and again in February

following. Mr. J. R. Carter, Political Agent, Sorath, was also pleased to visit Jafarabad in April last.

Captain S. Morton, Inspector of Signalling Imperial Service Troops, Meerut, and Captain H. C. Kay, Inspecting Officer, Imperial Service Cavalry, Kathiawar, paid visits to the State in connection with the inspection of the Janjira Imperial Service Signalling Corps in January and February last, respectively.

His Highness the Nawab Saheb of Sachin was also pleased to pay a short visit to the State in February last.

9. Mr. Sakharam Anant Kulkarni, Sadar Tehsildar, went on 3 months' privilege leave from the 7th February 1912 and no acting arrangement was made in his absence as the Dewan looked after his work. There were no other changes in the personnel of the administration. Appendix I accompanies.

No further progress in the settlement work was done in the villages of Ranawali and Pangloli during the year, as the complaint, preferred by the Inamdar of those villages referred to in the last year's report, has not yet been decided. In addition to the Inam villages of Shighre Nagseth and Bhaikhar in which Survey Settlement is being introduced, the Inamdar of Mandle applied during the year for the introduction of the Survey Settlement in his village and accordingly measuring work was commenced in that village during the year.

The total number of villages in Jafarabad is 12, and they are all unalienated. scarcity in this Taluka this year, larger amounts had to be advanced to cultivators for agricultural purposes.

17. The demand of the Land Revenue, in this part of the State, for the year of the report, was Rs. 2,45,247-5-1 and collections were Rs. 2,25,786-3-7, as compared with Rs. 2,47,094-4-2 and Rs. 2,24,198-14-2 respectively, last year. The number of notices issued was 3 against 7, last year. The total area under cultivation during the year was 10,941 acres and 25 gunthas, as against 10,901 acres and 23 gunthas, in the last year.

CHAPTER III.—PROTECTION.

Legislation.

18. In addition to the Acts already in force, His Highness the Nawab Saheb was pleased to introduce into the State during the year, the Mamlatdar's Courts Act, No. II of 1906 *mutatis mutandis* and to repeal the Janjira Tehsildar's Courts Act No. I of 1889. The Acts in force in the State are enumerated in Appendix II.

Military Force.

19. The total strength of the Military Force during the year was 223, as particularized in Appendix III, against 221 in 1910-1911. The Force consisted of 24 Fort Garrison, 14 Gunners, and 185 other Irregulars. They are all Sidi Sardars, Habshi Bhaibands, Janjirkars, and Chhorwads. Some of these men carry old fashioned swords, while others have got old match-locks of native manufacture. They have received no military training and are not consequently fit for any active service. Their duties are only confined to the Fort of Janjira, where they live mostly in their family houses. They are employed in protecting the Fort and in attending the Darbars. The total cost of maintaining the Force was Rs. 33,687-11-0 against Rs. 27,857-8-5 in the previous year, the increase being mainly due to a rise in the price of rice in which most of these men are paid.

In Jafarabad the strength of the Military Force remained the same as in the previous year, *viz.*, 12. It consisted of one Gunner and 11 Irregulars. The cost of maintenance of the Force was Rs. 876, the same as in the previous year.

Imperial Service Troops.

20. The total strength of the Janjira Imperial Service Signalling corps was 29 at the close of the last year ; out of these one died and two were discharged during the course of the year. There were thus only 26 men in the corps during the year. The corps consisted of 3 officers and 23 men, and comprised two Units, *viz.*, Unit A and Unit B. The Unit A is complete with 2 officers and 16 men, whereas the unit B, which is in process of formation, has one officer and 7 men inclusive of two armourers.

One Signaller belonging to the Unit A was detailed during the year for attending the 6th Class for the training of Assistant Instructors, at Kiyarighat, March-June 1912. The two apprentices attached to the Armourer's shop were sent in May last, to the Kirkee Arsenal for being attached to the 3rd Sappers and Miners and they are still attending their course of instruction there.

The Unit A in charge of the Senior Assistant Instructor, Havildar Madgari, was taken by His Highness with him to Delhi and employed as His Highness' Camp Guard.

One Coronation Durbar Medal 1911 was received from the Inspecting Officer, Central India Imperial Service Cavalry and Transport, Gwalior, for issue to the senior member of the Unit and it was accordingly awarded to Havildar Madgari.

The Corps was inspected during the year by the Inspector of Signalling, Imperial Service Troops, Meerut, and by the Inspecting Officer, Kathiawar Imperial Service Cavalry, Rajkot, in January and February last, respectively, and the general result of the inspection was satisfactory. Three men succeeded in qualifying as 1st Class and 7 as 2nd Class, as compared with 2 and 3, respectively of the last year. There was thus a distinct improvement in the standard this year, as compared with that of the last year.

The station discipline of the corps was found to be much improved during the year and the health of the men was good.

The total expenditure of the maintenance of the corps was Rs. 8,130-5-5, during the year against Rs. 9,958-2-3, last year.

Police.

21. The total strength of the Police Force, in this part of the State, was 144, against 143, last year. It consisted of one Inspector, 4 Chief Constables, 22 Head Constables, 116 Constables and one Drill Instructor. Of these, one Head Constable and 15 Constables were employed on Abkari duty. In addition to these, one extra Constable was temporarily employed to do duty at the Hareshwar port in connection with the arrivals and departures of steamers there. The equipment and discipline of the Force is nearly brought up to the British Standard. CHAPTER IV.—PRODUCTION AND DISTRIBUTION.

(*a*)—WEATHER AND CROPS.

40. The monsoon broke out in this part of the State about the 4th June 1911. The ranifall was general, well-distributed, and sufficient for sowings to complete and for seedlings to grow in time. The seedlings were ready for transplantation about the 3rd week of June. But transplantation was retarded for about a fortnight for want of sufficient rain and the seedlings slightly suffered in consequence. There was, however, heavy rainfall during the 2nd and 3rd weeks of July, which accelerated transplantation operations and the work proceeded vigorously until the operations were completed about the middle of August. The rainfall continued to be general and beneficial until about the end of the 2nd week of September, when rain which was gradually decreasing entirely ceased from the 7th of October. The insufficiency of this rain affected more or less almost all the Kharif and Varkas crops. The total rainfall was 73.30 inches as compared with 107.48⅔ inches last year. The average yield of Rice, Varkas, Rabi and Hemp crops was annas 10, 7, 5 and 5 in a rupee respectively, taking the average standard of the normal crop to be annas 12. The principal products of the garden lands are cocoa-nut and betel-nut and their average yield was good.

The average out-turn of Bajari, Jwari, Sesamum and Cotton was annas 8, 7, 2 and 4 respectively, taking the average standard of the normal crop at annas 12. There are no garden lands in Jafarabad. In the beginning of September last, when the crops appeared to be withering for want of rain, Test Relief Works were started especially with a view to repair the old wells and to dig up new wells in different parts of the cultivated lands. The cultivators were permitted to use water from the wells so repaired or constructed to irrigate the standing monsoon crops and to grow fodder crops. 17 old wells were repaired and 69 new wells were dug up; and the cultivators have been using water from all these wells to grow crops. At the same time the needy cultivators were given Takavi Advances for the purchase of grain, fodder, leather-buckets, etc.

57. Under expenditure there was a marked increase under the heads Military Force, Criminal Courts, Jail and Police, Stables and Cattle, Opium and Miscellaneous. The causes of increase under the Military Force and Opium are explained in paras 19 and 63, respectively. The increase under Criminal Courts, Jail and Police was mainly due to an increase under the Police Department, the cause of which is explained in para 21. The cause of increase under Stables and Cattle was mainly due to new harnesses and other dead-stock articles having been purchased during the year. The increase under Miscellaneous was partly due to some of the charges on account of the Census of 1911 having been paid during the year of the report and partly to more printing work done during the year.

63. The balance of opium at the beginning of the year was 290 lbs 25 tolas and 25 grains, in this part of the State, and the opium gained in weight 24 tolas and 145 grains by the effects of the season. The total quantity of opium for sale was thus 291 lbs. 9 tolas and 170 grains, out of which 123 lbs. 8 tolas and 67½ grains were sold during the year at the standard issue rates leaving a balance of 163 lbs. 1 tola and 102½ grains in stock at the end of the year. The increase in expenditure under this head during the year was due to the price of the two chests of opium purchased in 1910-1911, having been paid during the year of the report. No offence against the Opium Act was reported during the year.

In Jafarabad the year opened with a balance of 95 lbs. 31 tolas and 22½ grains of opium and 272 lbs. 8 tolas and 160 grains of opium were purchased during the year from the Collector of Customs, Bombay. The opium gained in weight 28 tolas and 88¾ grains. There were thus 368 lbs. 28 tolas and 91¼ grains of opium for sale, out of which 267 lbs. 3 tolas and 43¾ grains were sold at the standard issue rates. In addition to this 73 lbs. 9 tolas and 11¼ grains of opium were destroyed as it was found to be unfit for sale. There was thus a balance of 28 lbs. 5 tolas and 12½ grains of opium in stock at the end of the year. The realizations and expenditure were Rs. 4,123-5-½ and Rs. 3,082-15-5 respectively as compared with Rs. 3,631-14-10 and Rs. 2,401-8-0 respectively last year. No offence against the Opium Act was reported during the year.

(*c*)—Abkari.

65. The system of the Abkari Administration in this part of the State continued to be the same as in the Bagayat portion of the Kolaba District. There was one Distillery at work in the town of Murud which distilled toddy liquor of the strength of 60° U.P. and 25° U.P. The system of admitting all surplus toddy from toddy-shops into the Distillery for distillation referred to in the last year's report was continued during the year. The total number of licenses issued for toddy-shops during the year was 61 as against 56 last year and the number of cocoa-nut trees covered by them was 3,702 against 3,550 last year. In addition to these, 49 licenses were issued for tree-foot booths and the number of brab trees covered by them was 1,749 as against 43 licenses and 1,596 brab trees last year.

66. There are two rates of tree-tax in force in the State, *viz.*, Rs. 12 for tapping each cocoa-nut tree and Rs. 3 for tapping a brab or bherlimad tree.

67. No separate still-head duty is levied on the country liquor issued from the State Distillery. The prices at which liquor is sold to the shop-keepers are fixed from time to time according to the fluctuations in the rates of still-head duty in the Bagayat portion of the Kolaba District, leaving a margin of annas 6 per gallon for 25° U. P. and annas 4 per gallon for 60° U. P. of country liquor as the shop-keeper's profit. The prices at which liquor was sold during the year under report were as shown below :—

The cost of managing the Abkari Administration is shown below as compared with that of the last year :—

Head.	1912-1913.			1911-1912.

YOUR HIGHNESS,

I have the honour to submit herewith the Annual Administration Report of the Janjira State, including the Dependency of Jafarabad, for the official Year 1914-1915.

I am glad to observe that there has been perfect peace in the whole State and that all the subjects of your Highness rendered such assistance as was needed of them on important occasions during the

year and that their behaviour has been sincerely and thoroughly loyal to your Highness and the British Raj.

It is also very satisfactory to note that the State has enjoyed complete immunity from plague or any other epidemic disease throughout the whole year.
